Professional Controls									✔
Rexel Code	34 00 07	34 00 08	34 00 11	34 00 16	34 00 27	34 00 37	34 00 41	34 00 46	34 00 51

Notes: All timings shown are approximate. **On A3 machines laminating speed can be increased by up to 30% by using GBC HighSpeed™ Pouches.**

2 Selecting the right pouch:

What documents do you want to laminate?	Card™Pouch	Document™Pouch
Labelling & identity	✔	✔
Reference materials	✔	✔
General everyday items		✔
Photos		✔
Size	ID sizes	A2 to A7
Pouch Thickness (mic.)	250/500	150/500

2 years GUARANTEE

Whichever thickness of pouch you select your document will be perfectly laminated. The lower the micron selected the more flexible the finished laminated document. The higher the micron the more rigid the document. As a general rule the more frequently that your document will be handled the higher the thickness of pouch you should select.

QUALITY TO GO FURTHER

BiC® GETS IT WRITE - AGAIN!

This back-to-school, the stationery leader is giving away 1.2 million pens and counting!

When parents go shopping for their kids' back-to-school needs, they will not only be stocking up on quality, reliable stationery – they'll ALSO know they're doing something real to help those less fortunate. Once again, BiC® is forging the way forward in the fight for improving education in our country. The 'Trust BiC® Quality to go further' has launched and the company is ready to give away thousands of pens to some important little people who would otherwise go without this vital tool for learning.

The promotion is running for a third year – and has grown in success since making its mark in 2011. It's a very simple yet hugely effective concept, says BiC® Stationery Marketing Manager, Millicent Quoilin. As before, BiC® has come together with the READ Educational Trust, the power of South Africa's retailers and the support of the caring public. Over 30 different BiC® products have been produced to carry a special sticker. Each time one of these packs is sold, BiC® will donate a pen to a disadvantaged child.

Since the first year of the promotion, a total of 2.2 million pens have been given away at selected READ Project schools and those chosen by the National Department of Education – including Tshepana School in Orange Farm and Mbuysa Makhubu Primary School.

Many children in our country are not equipped with the basic tools of learning. Some 12 000 000 learners enrol for school every year, yet many of them don't even have a pen. **BIC® is helping to put things to WRITE!**

For more information on this initiative visit www.bic.co.za or www.read.co.za.

PILOT HRF3/5/7/9G-20 NEOX GRAPHITE LEAD

P Pencil – Lead

Your pencil lines can be cleaner and sharper than ever with the Pilot Neox High-Purity Graphite Pencil Lead. The high quality graphite in the lead has very few impurities, and the bond between the carbon atoms is stronger than ever. The lead also makes use of the lubricating properties of graphite crystal to ensure a smooth writing experience. The results are clear, sharp, dark lines that will glide smoothly across your paper. Multiple lead grades available.
